## **DETAILED ACTION**

### **Status of claim**

1. This is in response to applicant's amendment and argument filed June 5, 2006, in which claims 1-4 have been deleted and claims 5-19 are pending.

After further search and examination of the present application and in view of the amendment, claims 5-19 are found to be in condition for allowance.

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach the pilot signal is sampled at a rate lower than a symbol rate of said data signal, and the sampled pilot signal is interpolated into the symbol rate of said data signal using an FIR filter operating at the symbol rate of said data signal and entered into the Fm filter, and wherein the output of the filter is used as a channel estimation result. These limitations, in conjunction with all other limitation, have not been disclosed, taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
